To Whom It May Concern:

I would like to introduce the band "NoEnd".

I have been in the record industry for over 35 years and have had the opportunity to record some of the biggest acts in the history of popular music. It is in my professional opinion that this band has the potential to be a big hit not only here in the states, as they have already proven themselves, but in the rest of the world markets. I recorded this record over a 6 month period in a state-of-the-art studio sparing no expense as I felt the quality of the songs warranted it. I have personally engineered, co-produced, and mastered this record in an effort to get an album quality recording suitable for immediate release. I hope that you find this band and its music as inspiring and radio friendly as I do.

Sincerely,

Tony Bongiovi
President
